MADERA COUNTY
DEPARTMENT OF AGRICULTURE
128 South Madera Avenue

March 1, 1966

Mr. Charles Paul, Director
California State Department of Agriculture

and

The Honorable Board of Supervisors
County of Madera

J. W. Schmitz, Jr., Chairman
Harold J. Balmat
Phillips Eastman
Herman Neufeld
L. C. Thompson

Gentlemen:

The thirty-seventh annual crop report for the County of Madera is submitted in accordance with Section 65.5 of the Agricultural Code. This report covers the acreage, production and gross value of all agricultural crops produced in the county, including livestock and livestock products.

The values shown in this report represent gross values and do not take into consideration the cost of production and harvesting. Acreages of permanent crops are reported in actual bearing acres and other crops are in rounded harvested acres.

The 1965 grand total of \$82,715,000 is a record high for Madera County. This represents an increase of over a million dollars from our previous high of \$81,505,000 in 1964, and is attributed mainly to the higher returns from livestock and poultry and livestock and poultry products.

I wish to thank the many organizations, business firms, and individuals who so willingly cooperated with me and members of my staff, by furnishing the necessary information which made the compilation of this report possible.

Respectfully submitted,

James S. Davis

James S. Davis
Agricultural Commissioner

	1964	53,079	5,647	58,726

The total known amount of timber cut in Madera County is included as an item of interest. The gross value of this important industry is not included in our farm income; however, it does contribute much to the overall economy of our county.
