## ***2007 AGRICULTURAL CROP REPORT***

# TEN LEADING CROPS MADERA COUNTY 2007

Commodity	2007 Rank	2007 Dollar Value	2006 Rank
Milk	1	\$301,833,000	3
Almonds, Nuts & Hulls	2	\$248,068,000	1
Grapes	3	\$224,868,000	2
Pistachios	4	\$83,455,000	4
Replacement Heifers	5	\$54,162,000	5
Alfalfa	6	\$42,835,000	6
Cattle and Calves	7	\$40,399,000	8
Nursery Stock	8	\$34,866,000	7
Poultry	9	\$26,321,000	10
Corn	10	\$20,915,000	—

Diversity, which serves to strengthen the agricultural economy of Madera County, is evident in this listing of our Ten Leading Crops, which include fruit and nut crops, field crops, nursery stock, dairy and beef cattle. The wide range of commodities produced in our county is further underscored by that segment of the chart entitled "Other," which includes such diverse products as kiwifruit, fish, sugar beets, wool, cut flowers, eggplant, firewood, and beeswax.

Robert J. Rolan, Agricultural Commissioner  
Sealer of Weights and Measures

Jay Seslowe, Assistant Agricultural  
Commissioner/Sealer

A. G. Kawamura, Secretary  
California Department of Food and Agriculture  
and  
The Honorable Board of Supervisors  
Frank Bigelow, Ronn Dominici, Vern Moss, Max Rodriguez, and Tom Wheeler

In accordance with the provisions of Section 2279 of the California Food and Agricultural Code, I am pleased to submit the 2007 Agricultural Crop Report. This report summarizes the acreage, yield, and gross values of agricultural commodities produced in Madera County but does not in any manner reflect net income or loss to producers.

Madera County's total value of agricultural production in 2007 was \$1,220,230,000. This represents an 18% increase over the total reported in 2006.

For the first time since it was initially reported in 1940, milk has become Madera County's leading commodity with a value of \$301,833,000. This represents a 78% increase over the combined value of market and manufacturing milk in 2006. And, as Madera County's dairy industry has grown, so has the demand for herd replacement and the crops that provide feed to them, further adding to our local economy.

Overall, field crop values saw a gain of almost 10% over 2006, mainly due to increased alfalfa and corn values. Conversely, cotton acreage was sharply reduced to 5,100 acres. Permanent crops saw a gain of almost \$25 million over 2006, buoyed by increases in grapes and almonds. However, the value of pistachios fell almost 45% from last year's level.

This year's report features a retrospective glance at Madera County agriculture. Beginning with the 1937 crop report, total value, leading crops, and other points of interest are tracked in ten year increments. It provides an opportunity to note the trends of the past seventy years and reflect upon the changes that have occurred in our county's most important industry.

The preparation of a report of this type requires extensive collaboration, and I sincerely appreciate the contributions of our growers, the staff of the University of California Cooperative Extension, and industry representatives. I would also like to thank all the members of my staff, especially Cha Vang who compiled the information in its final form.

Sincerely,

Robert J. Rolan  
Agricultural Commissioner/Sealer

# MADERA COUNTY HIGHLIGHTS

County Established	March 11, 1893
County Seat	Madera (city)
Population <sup>a</sup>	146,345

<b>Total County Acreage<sup>b</sup></b>	1,366,951
2007 Harvested Acreage	648,300
Field Crop Acreage	101,400
Fruit and Nut Acreage	186,900
Nursery Acreage	700
Vegetable Acreage	6,300
Rangeland Acreage	353,000
Forest Acreage	414,300
U. S. Parkland Acreage	83,000

	2005				210,024,000

a/ Madera County has 59 dairies, with 75,000 lactating cows

b/ Includes aquaculture, ducks, market eggs, hogs, manure, sheep, lambs and wool

# MADERA COUNTY AGRICULTURE DECADE TO DECADE

## 1937 *Niels Overgaard, County Agricultural Commissioner*

<b>Gross Production Value</b>		<b>\$9,845,140</b>
<b>Top Three Commodities*</b>	<b>Cotton</b>	<b>\$4,860,600</b>
	<b>Grapes (all)</b>	<b>\$2,145,350</b>
	<b>Barley</b>	<b>\$1,041,600</b>

**Highlights** Other crops included: Strawberries (100 acres), Potatoes (65 acres), Asparagus (50 acres), Artichokes (20 acres). Madera County had a total of 16,585 acres of grapes in production.

\* No figures available for Milk or Cattle and Calves.

## 1947 *George A. Pohl, County Agricultural Commissioner*

<b>Gross Production Value</b>		<b>\$49,091,780</b>
<b>Top Three Commodities</b>	<b>Cotton</b>	<b>\$10,779,320</b>
	<b>Cattle/Calves</b>	<b>\$8,437,730</b>
	<b>Alfalfa</b>	<b>\$6,010,200</b>

**Highlights** Potatoes (2,457 acres) and Rice (1,280 acres) were significant contributors and Milk was a leading commodity in Madera County ranked 4th at \$4,916,530

## 1957 *Howard T. McLean, County Agricultural Commissioner*

<b>Gross Production Value</b>		<b>\$62,190,872</b>
<b>Top Three Commodities</b>	<b>Cotton</b>	<b>\$13,138,727</b>
	<b>Cattle/Calves</b>	<b>\$12,088,813</b>
	<b>Grapes</b>	<b>\$6,885,530</b>

**Highlights** Cotton was king, but the Commissioner noted "The trend toward the planting of more fruit and nut crops is indicated by the non-bearing acreage of 2,921 acres of grapes, 959 peaches, 852 figs, 617 almonds, and 346 walnuts."

Milk was ranked fourth at \$6,148,090 while alfalfa, "plagued by aphid and reduced acreage" dropped to 6th in value.

## 1967 *James S. Davis, County Agricultural Commissioner*

<b>Gross Production Value</b>		<b>\$79,976,200</b>
<b>Top Three Commodities</b>	<b>Grapes</b>	<b>\$14,401,000</b>
	<b>Cotton</b>	<b>\$12,573,000</b>
	<b>Cattle/Calves</b>	<b>\$12,375,000</b>

**Highlights** Some yields were reduced due to adverse weather during bloom and spring planting. Over three decades, grape acreage grew to 33,216. In past decade, almond acreage doubled to 2,084 but was not yet a "million dollar crop." Milk, valued at \$7,259,000 was nudged out of 4th place by alfalfa. Turkeys were ranked 6th at \$5.6 million and potatoes rounded out the top ten at \$1.4 million.

Timber harvest was reported at 56,530 million board feet.

## 1977 *Donald O. Cripe, County Agricultural Commissioner*

<b>Gross Production Value</b>	<b>\$219,640,000</b>	
<b>Top Three Commodities</b>	<b>Grapes</b>	<b>\$70,878,000</b>
	<b>Cotton</b>	<b>\$28,633,000</b>
	<b>Alfalfa</b>	<b>\$20,520,000</b>

**Highlights** At \$13,721,000, almonds were the 6th leading crop in the county and milk was valued at \$17,470,000 (4th). Pistachios were just beginning to bear fruit with 327 harvested acres valued at \$314,000. Sugar beets were ranked 11th at \$2,370,000 on 5,400 acres.

Timber harvest (1976) was reported at 58,713 million board feet

## 1987 *Donald O. Cripe, County Agricultural Commissioner*

<b>Gross Production Value</b>	<b>\$430,633,000</b>	
<b>Top Three Commodities</b>	<b>Grapes</b>	<b>\$116,955,000</b>
	<b>Almonds</b>	<b>\$54,068,000</b>
	<b>Cotton</b>	<b>\$38,196,000</b>

**Highlights** Ten years later, the value of milk had doubled to \$34,239,000 (4th) and the bearing acreage of pistachios had grown to 14,424 with a value of \$17,742,000, making it the 9th leading commodity in the county.

Timber harvest virtually tripled over a 20 year period with 164,900 million board feet reported, valued at \$9.5 million.

## 1997 *Robert J. Rolan, County Agricultural Commissioner*

<b>Gross Production Value</b>	<b>\$788,503,000</b>	
<b>Top Three Commodities</b>	<b>Grapes</b>	<b>\$280,525,000</b>
	<b>Almonds</b>	<b>\$154,197,000</b>
	<b>Milk</b>	<b>\$64,296,000</b>

**Highlights** Pistachios were valued at \$55,835,000. The combined value of grapes, almonds and pistachios represented over 60% of Madera County's total crop production. Almond acreage had grown to 42,514 while grape acreage exceeded 87,000.

Forest management policies severely reduced the local timber harvest which had been vibrant only a decade before and the 1997 report indicated a decline to 5,504 million board feet with a value of \$1,225,000.

# ***SUSTAINABLE AGRICULTURE REPORT*** **2007**

The **Pest Exclusion Program** prevents the introduction of injurious pests that are not of common occurrence in the county.

During 2007, over 590 shipments of plant material, received by nurseries, were inspected for potentially injurious pests prior to retail sale.

Over 5,300 acres were surveyed for Red Imported Fire Ants, including commercial nurseries, recently-landscaped residential developments, and orchards pollinated by out-of-state beehives. Over 1,900 acres are under treatment for Red Imported Fire Ants.

Countries receiving agricultural commodities require certification that the commodities are free from potentially injurious pests. Over 2,900 phytosanitary inspections were performed on Madera County commodities destined for export.

The **Pest Detection Program** utilizes insect traps and surveys for the detection of foreign pests which may have eluded exclusion efforts.

The trapping program in Madera County targeted multiple pests, including the following:

*Apple Maggot*

*Caribbean Fruit Fly*

*European Corn Borer*

*Gypsy Moth*

*Japanese Beetle*

*Khapra Beetle*

*Light Brown Apple Moth*

*Mediterranean Fruit Fly*

*Melon Fly*

*Mexican Fruit Fly*

*Oriental Fruit Fly*

Over 1,380 traps were deployed in the county, with over 13,360 trap servicings performed during the 2007 season.

The **Integrated Pest Control Program** strives to eradicate infestations of new pests before they become widespread. Pink Bollworm was controlled by post-season plowdown of 5,100 acres of cotton plants.

The **Glassy-winged Sharpshooter Program** serves to detect and control the vector of Pierce's Disease, a potentially catastrophic disease of vineyards. This program involved the placement of 539 traps, with 8,375 subsequent trap servicings. In addition, incoming shipments of host material and susceptible county plantings were inspected.

The **Vertebrate Pest Management Program** provides expertise and materials, to growers and homeowners, for the control of certain depredating vertebrate pests.

Forty-six **Organic Farms**, totaling over 7,600 acres, were registered in Madera County in 2007. Utilizing organic principles defined in the California Organic Products Act of 2003, these farms produce a wide array of commodities:

*almonds, apples, artichokes, arugula, basil, green beans, beets, berries, broccoli, brussels sprouts, cabbage, cantaloupe, cardoon, carrots, celery, chard, cherries, chicory, cilantro, collards, sweet corn, cotton, cucumbers, eggplant, fennel, figs, edible flowers, garlic, gourds, grapes (table, raisin, wine), honeydew, kale, kohlrabi, leeks, lettuce, nectarines, okra, onions, parsley, parsnips, peaches, peas, peppers, pistachios, plums, dried plums, potatoes, poultry, radish, spinach, squash, sudan grass, tomatillos, tomatoes, turnips, watermelons*

The total value of organic production in Madera County during 2007 was \$13,005,000.
