Report of Independent Auditors

To the Board of Supervisors
Madera County

Report on the Financial Statements

We have audited the accompanying financial statements of the Service Area 22 – Table Mountain (District), a component unit of the County of Madera, California as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the California Code of Regulations, Title 2, Section 1131.2, State Controller's *Minimum Audit Requirements for California Special Districts*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Service Area 22 – Table Mountain as of June 30, 2017, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Correction of Error

As discussed in Note 5 to the financial statements, the District restated their net position as of June 30, 2016, for reporting capital assets owned by the County of Madera, California, and other districts, in particular, land, land under roads, and infrastructure, as owned by the District. Our opinion is not modified with respect to that matter.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 13 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

NOTES TO THE BASIC FINANCIAL STATEMENTS

THIS PAGE IS LEFT BLANK INTENTIONALLY.

**SERVICE AREA 22 – TABLE MOUNTAIN
(A COMPONENT UNIT OF THE COUNTY OF MADERA, CALIFORNIA)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the **SA 22 – Table Mountain** (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District provides fire prevention, road maintenance, and lighting services. The District is generally located on the north side of the San Joaquin River and accessed from Highway 41 beginning in the vicinity of Valley Children's Hospital west of Highway 41 north of Children's Boulevard and continues east of Highway 41 north of Children's Boulevard for approximately 5 1/2 miles then extending in a north-easterly direction beyond Millerton Lake up to the boundary Millerton Lake State Park.

SA 22 and SA 22-Zone of Benefit A were formed on July 28, 1992 by Board Resolution 92-249. Direct assessments were set for road maintenance, lighting and fire services when the District was formed.

SA22-Zone of Benefit B was formed on May 15, 1999 by Resolution 99-054. SA22-Zone B was formed to provide fire prevention, road maintenance, and lighting services to Valley Children's Hospital and its immediate area. Valley Children's Hospital is billed quarterly for 66% of the cost (including an 11% administrative fee) to provide fire protection to the area.

SA22-Zone of Benefit D (Riverstone) was formed on August 9th 2016 by Resolution 2016-226 and its boundaries consists of approximately 125.4 acres in size. When the SA22-Zone D was formed a direct annual assessment of \$285.73 per single family detached residential unit, \$197.72 per multi-family and/or attached residential unit, and \$0.40 per square foot of building on commercial properties (non-residential land use). The above mentioned annual assessment was allocated for maintenance on street lighting, and landscaping, and road system.

The Board of Supervisors is the governing body of the District. The District is considered a blended component unit of the County of Madera and is reported as a special revenue fund in the County of Madera financial statements. The financial statements included in this report are intended to present the financial position and results of operations of only the District. They are not intended to present the financial position or results of operations of the County of Madera taken as a whole.

B. Basis of Presentation and Method of Accounting

The District accounts for its activities as a single governmental fund. The District's accounting records are maintained on the modified accrual basis of accounting but the basic financial statements are presented at both the government-wide and fund financial level, on a full accrual and modified accrual basis, respectively.

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded.

**SERVICE AREA 22 – TABLE MOUNTAIN
(A COMPONENT UNIT OF THE COUNTY OF MADERA, CALIFORNIA)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation and Method of Accounting (Continued)

Government-Wide Financial Statements

The government-wide financial statements include a Statement of Net Position and a Statement of Activities. These financial statements are presented on an “*economic resources*” measurement focus and the accrual basis of accounting. Accordingly, all the District’s assets and liabilities, including capital assets, as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. An economic resource focus concentrates on an entity’s net position. All transactions and events that affect the total economic resources (net position) during the period are reported. An economic resources measurement focus is inextricably connected with full accrual accounting. Under the full accrual basis of accounting, revenues are recognized in the period which they are earned, while expenses are recognized in the period in which the liability is incurred.

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Change in Fund Balance. An accompanying schedule is presented to reconcile and explain the differences in fund balance as presented in these statements to the net position presented in the government-wide financial statements.

Governmental funds are accounted for on a spending or “*current financial resources*” measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Change in Fund Balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual of accounting, revenues are recognized in the accounting period in which they become both measureable and available to finance expenditures of the current period.

Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded in the accounting period in which the liability is incurred.

Unavailable revenues arise when potential revenues do not meet both the “measureable” and “available” criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met or when the government has a legal claim to the resources, the unavailable revenue is removed from the Balance Sheet and revenue is recognized.

The District’s revenues consist of assessments and revenue from use of money and property. Program expenses are defined as those expenses directly related to providing road maintenance services.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, reconciliation is necessary to explain the adjustments needed to transform the fund-based financial statements into the government-wide presentation.

C. Cash and Investments

Cash and investments shown in the Statement of Net Position and in the Balance Sheet represent the District’s share of the County of Madera’s cash and investment pool. Interest earnings from this pool are transferred to the District on a quarterly basis based on the District’s average daily balance. The County has an investment committee, which performs regulatory oversight for its pool as required by California Government Code Section 27134.

**SERVICE AREA 22 – TABLE MOUNTAIN
(A COMPONENT UNIT OF THE COUNTY OF MADERA, CALIFORNIA)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Receivables

Receivables consist of interest and assessments from the County of Madera. Management believes its receivables to be fully collectible, and accordingly, no allowance for doubtful accounts is required.

E. Special Assessments

Secured and unsecured special assessments are levied in July each year. Special assessments become a lien against the property as of January 1 of each year. Secured special assessments are payable in two installments which are due November 1 and February 1. Unsecured special assessments are due on August 31. All special assessments receivable are due from property owners within the District.

F. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (such as roads and similar items), are reported in the Statement of Net Position in the government-wide financial statements. Capital assets are defined by the District as assets with a cost of more than \$5,000 for machinery and equipment and \$10,000 for the other categories of capital assets with an estimated useful life of more than one year. Capital assets are valued at historical cost or estimated historical cost if actual historical cost was not available. Donated assets are valued at their estimated fair market value on the date donated.

Depreciation is recorded on a straight-line basis over estimated useful lives of the assets as follows:

<u>Depreciable Asset</u>	<u>Estimated Life</u>
Infrastructure	20-50 years
Structures and Improvements	30-50 years
Equipment	3-20 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Interest accrued during capital assets construction, if any, is capitalized as part of the asset cost.

G. Budget

The District's budget is prepared on the modified accrual basis of accounting consistent with GAAP. The proposed budget is the spending authority from July until budget hearings are held the end of August and the County of Madera Board of Supervisors formally adopts the budget in early September. Once approved, the Board of Supervisors may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations. Unencumbered appropriation for annual budgeted funds lapses at fiscal year-end.

Revenues are budgeted by source. Expenditures are budgeted by objects as follows: services and supplies, other charges, and capital outlay. This constitutes the legal level of control. Expenditures may not exceed appropriations for travel, transportation and education. Budget revisions between object levels, for travel, transportation, and education, or specific capital outlays are subject to final approval by Board of Supervisors. Revisions less than \$5,000 within the object levels (excluding transportation, travel & education and specific capital outlays) can be approved by the County Administrative Officer.

(A COMPONENT UNIT OF THE COUNTY OF MADERA, CALIFORNIA)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Net Position and Fund Balances

Government-Wide Financial Statements

In the government-wide financial statements, net position is classified in the following:

- Net investment in capital assets – This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- Restricted – This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted – This category represents all other net position of the District, that do not meet the definition of “net investment in capital assets” or “restricted net position.”

Fund Financial Statements

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in governmental fund financial statements are as follows:

- Nonspendable Fund Balance – includes amounts that are not in a spendable form (such as inventories or prepaid amounts, and long-term loans and notes receivable) or are legally or contractually required to be maintained intact (such as principal of a permanent fund).
- Restricted Fund Balance – includes amounts that can be spent only for specific purposes stipulated by external parties (such as creditor, grant providers, or contributors) or by law.
- Committed Fund Balance – includes amounts that can be used only for the specific purpose determined by the County of Madera Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action. The formal action must occur prior to the end of the reporting period. The amount which will be subject to the constraint may be determined in the subsequent period.
- Assigned Fund Balance – is comprised of amounts intended to be used by the governmental entity for specific purposes that are neither restricted nor committed. Intent can be expressed by the Board of Supervisors or by an official or body to which the Board delegates the authority. Assigned fund balance can be used to eliminate a projected budgetary deficit in the subsequent year’s budget.
- Unassigned Fund Balance - is the residual classification for the District and includes all amounts not contained in the other classification. Unassigned amounts are technically available for any purposes.

The Board of Supervisors establishes, modifies or rescinds fund balance commitments and assignments by passage of a resolution or an ordinance. This can be done through the adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, followed by committed, assigned and unassigned resources as they are needed.

**SERVICE AREA 22 – TABLE MOUNTAIN
(A COMPONENT UNIT OF THE COUNTY OF MADERA, CALIFORNIA)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2: CASH AND INVESTMENTS

Cash and investments at June 30, 2017 are classified in the financial statements as follows:

Cash and investments – unrestricted	\$276,227
-------------------------------------	-----------

The District's cash and investments consisted of the following as of June 30, 2017:

Deposits held with County of Madera Investment Pool	\$276,227
---	-----------

Risk Disclosure

Required disclosures for the District's deposit and investment risks for the cash held in the County of Madera Treasury at June 30, 2017, were as follows:

Credit risk	Not rated
Custodial risk	Not applicable
Concentration of credit risk	Not applicable
Interest rate risk	Refer to County of Madera's financial statements

Required disclosure information regarding categorization of investments and other deposit and investment risk disclosures can be found in the County of Madera's Comprehensive Annual Financial Report and may be obtained by contacting the County Auditor-Controller's Office at 200 W. 4th Street – Madera, CA 93637.

Fair Value Measurements

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and,
- Level 3: Investments reflect prices based upon unobservable sources.

The District's cash investments in the County of Madera Investment Pool are carried at fair value. County of Madera invests in numerous types of investments ranging all levels in the fair value hierarchy. Accordingly, County of Madera Investment Pool is not an investment type that can be categorized in any particular level in the fair value hierarchy.

**SERVICE AREA 22 – TABLE MOUNTAIN
(A COMPONENT UNIT OF THE COUNTY OF MADERA, CALIFORNIA)**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2017**

NOTE 3: RELATED PARTY TRANSACTIONS

The District's assessments are levied and collected through County of Madera Assessor and Treasurer-Tax Collector departments. The District contracts with the County of Madera to provide certain services to the District. The District's accounting and clerical functions are performed by County personnel. The County of Madera charges the District for administrative costs incurred.

The amount due to the County of Madera as of June 30, 2017 is \$57,135.

NOTE 4: INSURANCE AND RISK OF LOSS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and natural disasters. Because the District does not have employees, it is not exposed to injuries to employees. The District's officers are officials of the County, and therefore coverage for general liability and errors and omissions is provided under the County's program. This program is self-insured to a level of \$100,000, after which excess coverage is obtained through participation in the CSAC Excess Insurance Authority (EIA). Disclosure of complete information on risk management can be found in the County of Madera Comprehensive Annual Financial Report.

NOTE 5: RESTATEMENT OF BEGINNING NET POSITION

The beginning net position was overstated by \$360,304 due land, land under roads, and infrastructure belonging to the County of Madera or other special districts reported belonging to the District.

The restatement of beginning net position of governmental activities is summarized as follows:

	Net investment in capital		
	assets	Restricted	Total
Governmental Activities:			
Net position at June 30, 2016, as previously stated	\$ 360,304	\$ 181,253	\$ 541,557
Land, land under roads, and infrastructure adjustments	(360,304)	-	(360,304)
Net position at June 30, 2016, as restated	\$ -	\$ 181,253	\$ 181,253

The effect on the prior year change in net position of governmental activities is summarized as follows:

Governmental Activities:	
Change in net position for the year ended June 30, 2016, as previously stated	\$ 9,647
Infrastructure depreciation expense adjustment	11,584
Change in net position for the year ended June 30, 2016, as restated	\$ 21,231
