Communicable Disease and Outbreak Reporting

Medical providers and laboratories are required to report certain communicable diseases to the Madera County Department of Public Health Communicable Disease Control Program. To find out which disease conditions are mandated by law for reporting, please view: [Title 17, California Code of Regulations \(CCR\), §2500](#). If you are a medical provider and would like to report a reportable communicable disease, please fax the appropriate [Confidential Morbidity Report \(CMR\)](#) to 559-674-7262. If you would like to report an outbreak, please contact the Communicable Disease Control Program at: 559-675-7893.

Data was pulled from California Reportable Disease Information Exchange (CaREDIE) on 11/13/2019.

Notes: Case count includes suspect, probable, and confirmed case classification. For individual diseases, morbidity and mortality are based on date the case was received by the Communicable Disease Control Program. Totals may change due to delays in reporting from laboratories and providers, the use of different reporting systems, and changes to the resolution status of cases based on subsequent information received. *Year-to-Date (YTD) total count consists of community and incarcerated populations. For questions about case count, contact Madera County Department of Public Health at (559) 675-7893.
