#### **Narratives**

#### Summary of Distribution and Uses of NSP Funds:

The County plans to utilize its NSP3 funds for acquisition/rehabilitation/resale of single family residences. A portion of the NSP3 funding will be utilized to provide qualified low-income homebuyers with pre- and post-purchase counseling and direct homeownership assistance including down payment and closing cost assistance.

#### How Fund Use Addresses Market Conditions:

Using the information obtained through RealtyTrac.com, the County identified the location and concentration of foreclosures and preforclosures. Potential target areas were mapped utilizing HUD's NSP3 Mapping Tool. Target area data provided by HUD was evaluated and compared. Based on this analysis, target areas were identified and options ranked. The ability to achieve the greatest impact with the funds available was also considered.

Parkwood Target Area #3 (W. Pecan to Burges (Hazel); Lemon St. to Road 27) was selected in which to focus NSP3 activities. Parkwood Target Area #3 has the highest percentage of subprime mortgages (35.2%) and the second highest percentage of estimated delinquest mortgages (21.7%). It also has the second highest percentages of persons below 120% of area median income (78.3%) and 80% of area median income (51.9%). Sufficient funding is available to meet the HUD impact number of 7 units in this target area.

#### **Ensuring Continued Affordability:**

The County will ensure continued affordability by applying HOME program guidelines, as suggested by HUD, for rental and owner-occupied properties.

At a minimum, all assisted proiperties of NSP funds will be subject to the HOME requirement of continued affordability as outlined in the regulations for the HOME Investment Partnerships Program, Final Rule 24 CFR part 92.

#### **Definition of Blighted Structure:**

A structure is blighted when it exhibits objectively determinable signs of deterioration sufficient to constitute a threat to human health, safety and public welfare. This definition is consistent with California Health and Safety Code definition of a substandard structure under Section 17920.

#### **Definition of Affordable Rents:**

Per the CDBG program, the generally accepted affordability standards are that households pay no more than 30 percent of household income for rent and utilities.

Note: For the purposes of NSP only, the percentage of annual median income is iincreased to 120 percent and otherwise is consistent with the California Health and Safety Code Section 50053.

#### Housing Rehabilitation/New Construction Standards:

The County's Housiing Rehabilitation Program will provide a written rehabilitation standards with a write-up of deficiencies of each unit to be rehabilitated. After rehabilitation, the property must at a minimum meet local building codes, zoning ordinances, and cost-effective energy conservation standards. Local building codes include the international Building Code, International Residential Code, International Plumbing Code, International Mechanical Code, Uniform Mechanical Code, and National Electrical Code.

#### Vicinity Hiring:

To the maximum extent possible, the County will provide for vicinity hiring by placing a notice in the local newspaper to advertise for housing consultant services. In addition, the County will require its housing consultant to place a notice in the local newspaper to advertise for other services necessary for implementing its NSP3 activities such as appraisal services, real estate broker services, contractors, etc. Contractors will be encouraged to hrie locally for any construction workers needed and to investigate the prices of and, if feasible, purchase goods and services from local vendors.

#### Procedures for Preferences for Affordable Rental Dev.:

At this time, Madera County is not processing any rental development due to the fact that no rental units were identified in the area where the funds are being expended.

While obtaining data to identify the target area for the grant, the County determined that there was a high percentage of subprime mortgages (35.2%) and the fourth highest percentage of estimated delinquent mortgages (21.7%), thus determined rental units were not of an issue at this time to devote grant funding towards.

# **Overall Progress Narrative:**

Three homes had been identified and purchased. Purchase of some residences fell through. Funds drawndown are General Administrative Costs from the County and contractor as well as aquisition costs.

The three homes were vacant homes. Scope of work walk through conducted on two of the homes. Identified what could be done as it relates to acceptable work under the NSP-3 grant. Income levels (low, mod) of new occupants to be determined at time of sale to new owners (whom have not been identified yet). Some rehab work has started. TA Teleconference by KB Consulting occured on March 26, 2012. No report from the TA has been provided to the County, which worries the County.

One additional home has been identified and the initial purchasing process has begun.
