RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE OF GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2019

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the **MD 20 – Hidden Oaks Estates** (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

The District provides road maintenance to approximately 45 parcels served by 0.83 miles of paved roads. The District is located in the town of Oakhurst and is accessed east from State Highway 41 by way of Royal Oaks Drive and Pine Ridge Way.

The District was formed on September 14, 1965 by Board Resolution 65-241 and is approximately 60 acres in size. When the District was formed there was no direct assessment set for road maintenance. This District is pre Proposition 13 and receives a portion of property taxes to assist in road maintenance.

The Board of Supervisors is the governing body of the District. The District is considered a blended component unit of the County of Madera and is reported as a special revenue fund in the County of Madera financial statements. The financial statements included in this report are intended to present the financial position and results of operations of only the District. They are not intended to present the financial position or results of operations of the County of Madera taken as a whole.

B. Basis of Presentation and Method of Accounting

The District accounts for its activities as a single governmental fund. The District's accounting records are maintained on the modified accrual basis of accounting but the basic financial statements are presented at both the government-wide and fund financial level, on a full accrual and modified accrual basis, respectively.

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded.

Government-Wide Financial Statements

The government-wide financial statements include a Statement of Net Position and a Statement of Activities. These financial statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all the District's assets and liabilities, including capital assets, as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. An economic resource focus concentrates on an entity's net position. All transactions and events that affect the total economic resources (net position) during the period are reported. An economic resources measurement focus is inextricably connected with full accrual accounting. Under the full accrual basis of accounting, revenues are recognized in the period in which the liability is incurred.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation and Method of Accounting (Continued)

Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Change in Fund Balance. An accompanying schedule is presented to reconcile and explain the differences in fund balance as presented in these statements to the net position presented in the government-wide financial statements.

Governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Change in Fund Balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual of accounting, revenues are recognized in the accounting period in which they become both measureable and available to finance expenditures of the current period.

Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded in the accounting period in which the liability is incurred.

Unavailable revenues arise when potential revenues do not meet both the "measureable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met or when the government has a legal claim to the resources, the unavailable revenue is removed from the Balance Sheet and revenue is recognized.

The District's revenues consist of property taxes revenues and revenue from use of money and property. Program expenses are defined as those expenses directly related to providing road maintenance services.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, reconciliation is necessary to explain the adjustments needed to transform the fund-based financial statements into the government-wide presentation.

C. Cash and Investments

Cash and investments shown in the Statement of Net Position and in the Balance Sheet represent the District's share of the County of Madera's cash and investment pool. Interest earnings from this pool are transferred to the District on a quarterly basis based on the District's average daily balance. The County has an investment committee, which performs regulatory oversight for its pool as required by California Government Code Section 27134.

D. Receivables

Receivables consist of interest from the County of Madera. Management believes its receivables to be fully collectible, and accordingly, no allowance for doubtful accounts is required.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Property Taxes

Secured and unsecured property taxes are levied in July each year. Property taxes become a lien against the property as of January 1 of each year. Secured property taxes are payable in two installments which are due November 1 and February 1. Unsecured property taxes are due on August 31. All property taxes receivable are due from property owners within the District.

F. Budget

The District's budget is prepared on the modified accrual basis of accounting consistent with GAAP. The proposed budget is the spending authority from July until budget hearings are held the end of August and the County of Madera Board of Supervisors formally adopts the budget in early September. Once approved, the Board of Supervisors may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations. Unencumbered appropriation for annual budgeted funds lapses at fiscal year-end.

Revenues are budgeted by source. Expenditures are budgeted by objects as follows: services and supplies, other charges, and capital outlay. This constitutes the legal level of control. Expenditures may not exceed appropriations for travel, transportation and education. Budget revisions between object levels, for travel, transportation, and education, or specific capital outlays are subject to final approval by Board of Supervisors. Revisions less than \$5,000 within the object levels (excluding transportation, travel & education and specific capital outlays) can be approved by the County Administrative Officer. There were no revisions to the budget made throughout the year.

G. Net Position and Fund Balances

Government-Wide Financial Statements

In the government-wide financial statements, net position is classified in the following:

- Net investment in capital assets This category groups all capital assets, including infrastructure, into
 one component of net position. Accumulated depreciation and the outstanding balances of debt that
 are attributable to the acquisition, construction or improvement of these assets reduce the balance in
 this category.
- Restricted This category presents external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted This category represents all other net position of the District, that do not meet the
 definition of "net investment in capital assets" or "restricted net position."

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2019

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Net Position and Fund Balances (Continued)

Fund Financial Statements

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in governmental fund financial statements are as follows:

- Nonspendable Fund Balance includes amounts that are not in a spendable form (such as inventories
 or prepaid amounts, and long-term loans and notes receivable) or are legally or contractually required
 to be maintained intact (such as principal of a permanent fund).
- Restricted Fund Balance includes amounts that can be spent only for specific purposes stipulated by external parties (such as creditor, grant providers, or contributors) or by law.
- Committed Fund Balance includes amounts that can be used only for the specific purpose determined by the County of Madera Board of Supervisors. Commitments may be changed or lifted only by the Board of Supervisors taking the same formal action. The formal action must occur prior to the end of the reporting period. The amount which will be subject to the constraint may be determined in the subsequent period.
- Assigned Fund Balance is comprised of amounts intended to be used by the governmental entity for specific purposes that are neither restricted nor committed. Intent can be expressed by the Board of Supervisors or by an official or body to which the Board delegates the authority. Assigned fund balance can be used to eliminate a projected budgetary deficit in the subsequent year's budget.
- Unassigned Fund Balance is the residual classification for the District and includes all amounts not contained in the other classification. Unassigned amounts are technically available for any purposes.

The Board of Supervisor establishes, modifies or rescinds fund balance commitments and assignments by passage of a resolution or an ordinance. This can be done through the adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by committed, assigned and unassigned resources as they are needed.

G. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO THE BASIC FINANCIAL STATEMENTS **JUNE 30, 2019**

NOTE 2: CASH AND INVESTMENTS

Cash and investments at June 30, 2019 are classified in the financial statements as follows:

Cash and investments - unrestricted \$2.640

The District's cash and investments consisted of the following as of June 30, 2019:

Deposits held with County of Madera Investment Pool

\$2,640

Risk Disclosure

Required disclosures for the District's deposit and investment risks for the cash held in the County of Madera Treasury at June 30, 2019, were as follows:

Credit risk Custodial risk Concentration of credit risk Interest rate risk

Not rated Not applicable Not applicable Refer to County of Madera's financial statements

Required disclosure information regarding categorization of investments and other deposit and investment risk disclosures can be found in the County of Madera's Comprehensive Annual Financial Report and may be obtained by contacting the County Auditor-Controller's Office at 200 W. 4th Street - Madera, CA 93637.

Fair Value Measurements

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and,
- Level 3: Investments reflect prices based upon unobservable sources.

The District's cash investments in the County of Madera Investment Pool are carried at fair value. County of Madera invests in numerous types of investments ranging all levels in the fair value hierarchy. Accordingly, County of Madera Investment Pool is not an investment type that can be categorized in any particular level in the fair value hierarchy.

NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2019

NOTE 3: RELATED PARTY TRANSACTIONS

The District's property taxes are levied and collected through County of Madera Assessor and Treasurer-Tax Collector departments. The District contracts with the County of Madera to provide certain road maintenance services. The District's accounting and clerical functions are performed by County personnel. County of Madera charges the District for administrative costs incurred.

The amount due to the County of Madera as of June 30, 2019 is \$582.

NOTE 4: INSURANCE AND RISK OF LOSS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and natural disasters. Because the District does not have employees, it is not exposed to injuries to employees. The District's officers are officials of the County, and therefore coverage for general liability and errors and omissions is provided under the County's program. This program is self-insured to a level of \$100,000, after which excess coverage is obtained through participation in the CSAC Excess Insurance Authority (EIA). Disclosure of complete information on risk management can be found in the County of Madera Comprehensive Annual Financial Report.
