### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the **MD 63 – Coarsegold South** (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

### A. Reporting Entity

**MD 63** provides road maintenance to approximately 149 parcels served by 5.38 miles of paved roads and 3.24 miles of unpaved roads. MD 63 was formed on April 7, 1992 by Resolution No. 92-110 and is approximately 1,345 acres in size. MD 63 is located one half mile south of Coarsegold and is accessed from State Highway 41. When the District was formed, a direct assessment of \$100 per parcel per year for road maintenance was approved. On August 19, 2003 by Resolution No. 2003-234, an increase in the assessment roll for road maintenance was approved for each parcel within the District. This resolution also included an inflation mechanism for each subsequent year based on the Engineering News Record Construction Index using the twenty city average.

MD 63 Zone A was formed on November 12, 1996 by Resolution No. 96-319 and provides water service to a residential development. MD 63 Zone A is located south of the town of Coarsegold off State Route 41 at Veater Ranch Road. The Coarsegold South water system serves 82 improved units and 20 standby units. The water is furnished by the District's 2 hard rock wells with a combined production of 250 gallons per minute that supply an iron and manganese removal plant. After treatment, the water is pumped up to 2 storage tanks with the combined capacity of 250,000 gallons. The distribution system is gravity fed through 6, 8 and 10 inch PVC water main. There are consumer water meters and fire hydrants. A tiered water rate structure was set on June 15, 2004 by Resolution No. 2004-180 with an annual Consumer Price Index adjustment. The standby rate was set on September 28, 2004 by Resolution No. 204-264 with an annual Consumer Price Index adjustment.

The Board of Supervisors is the governing body of the District. The District is considered a blended component unit of the County of Madera and is reported as a special revenue fund in the County of Madera financial statements. The financial statements included in this report are intended to present the financial position and results of operations of only the District. They are not intended to present the financial position or results of operations of the County of Madera taken as a whole.

#### B. Basis of Presentation and Method of Accounting

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. The District resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

### **Government-Wide Financial Statements**

The government-wide financial statements include a Statement of Net Position and a Statement of Activities. These financial statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all the District's assets and liabilities, including capital assets, as well as infrastructure assets and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in net position. An economic resource focus concentrates on an entity's net position. All transactions and events that affect the total economic resources (net position) during the period are reported. An economic resources measurement focus is inextricably connected with full accrual accounting. Under the full accrual basis of accounting, revenues are recognized in the period which they are earned, while expenses are recognized in the period in which the liability is incurred.

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### B. Basis of Presentation and Method of Accounting (Continued)

Government-Wide Financial Statements (Continued)

Certain types of transactions are reported as program revenue for the District in two categories:

- Charges for services
- Capital grants and contributions

#### Fund Financial Statements

The fund financial statements provide information about the District's funds, separate statements for each fund category – *governmental and proprietary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as non-major funds.

The District reports the following major governmental funds:

• The MD 63 – Road Maintenance fund is used to account for all financial resources of the District relating to the maintenance of the paved and unpaved roads within the District.

The District reports the following major proprietary funds:

 The MD 63 Zone A – Water Operations & Maintenance fund is used to account for all financial resources of the District relating to water services provided to the residential development of the District.

#### Governmental Fund Financial Statements

Governmental fund financial statements include a Balance Sheet and a Statement of Revenues, Expenditures, and Change in Fund Balance. An accompanying schedule is presented to reconcile and explain the differences in fund balance as presented in these statements to the net position presented in the government-wide financial statements.

Governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Change in Fund Balance presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual of accounting, revenues are recognized in the accounting period in which they become both measureable and available to finance expenditures of the current period.

Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded in the accounting period in which the liability is incurred.

Unavailable revenues arise when potential revenues do not meet both the "measureable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met or when the government has a legal claim to the resources, the unavailable revenue is removed from the Balance Sheet and revenue is recognized.

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### B. Basis of Presentation and Method of Accounting (Continued)

#### Governmental Fund Financial Statements (Continued)

The District's revenues consist of assessments and revenue from use of money and property. Program expenses are defined as those expenses directly related to providing road maintenance services.

Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, reconciliation is necessary to explain the adjustments needed to transform the fund-based financial statements into the government-wide presentation.

#### Proprietary Fund Financial Statements

Proprietary fund financial statements include a Statement of Net Position and a Statement of Revenues, Expenses, and Changes in Net Position, and a Statement of Cash Flows.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned, while expenses are recognized in the period in which the liability is incurred.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. The principal operating revenues of the District are charges for services. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. Operating expenses for the District include the costs of sales and services, administrative expenses, and depreciation on capital assets. All other expenses are reported as non-operating expenses.

#### C. Cash and Investments

Cash and investments shown in the Statement of Net Position and in the Balance Sheet represent the District's share of the County of Madera's cash and investment pool. Interest earnings from this pool are transferred to the District on a quarterly basis based on the District's average daily balance. The County has an investment committee, which performs regulatory oversight for its pool as required by California Government Code Section 27134.

#### D. Receivables

Receivables consist of interest and assessments from the County of Madera and fees charged for water services. Management believes its receivables to be fully collectible, and accordingly, no allowance for doubtful accounts is required.

#### E. Assessments

Secured and unsecured assessments are levied in July each year. Assessments become a lien against the property as of January 1 of each year. Secured assessments are payable in two installments which are due November 1 and February 1. Unsecured assessments are due on August 31. All assessments receivable are due from property owners within the District.

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### F. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (such as roads and similar items), are reported in the Statement of Net Position. Capital assets are defined by the District as assets with a cost of more than \$5,000 for machinery and equipment and \$10,000 for the other categories of capital assets with an estimated useful life of more than one year. Capital assets are valued at historical cost or estimated historical cost if actual historical cost was not available. Donated assets are valued at their estimated acquisition value on the date donated.

Depreciation is recorded on a straight-line basis over estimated useful lives of the assets as follows:

Depreciable Asset	Estimated Life
Infrastructure	20-50 years
Water Systems	15-65 years
Structures and Improvements	30-50 years
Equipment	3-20 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized.

#### G. Budget

The District's budget is prepared on the modified accrual basis of accounting consistent with GAAP. The proposed budget is the spending authority from July until budget hearings are held the end of August and the County of Madera Board of Supervisors formally adopts the budget in early September. Once approved, the Board of Supervisors may amend the legally adopted budget when unexpected modifications are required in estimated revenues and appropriations. Unencumbered appropriation for annual budgeted funds lapses at fiscal year-end.

Revenues are budgeted by source. Expenditures are budgeted by objects as follows: services and supplies, other charges, and capital outlay. This constitutes the legal level of control. Expenditures may not exceed appropriations for travel, transportation and education. Budget revisions between object levels, for travel, transportation, and education, or specific capital outlays are subject to final approval by Board of Supervisors. Revisions less than \$5,000 within the object levels (excluding transportation, travel & education and specific capital outlays) can be approved by the County Administrative Officer.

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### H. Net Position and Fund Balances

#### **Government-Wide Financial Statements**

In the government-wide financial statements, net position is classified in the following:

- Net investment in capital assets This category groups all capital assets, including infrastructure, into
  one component of net position. Accumulated depreciation and the outstanding balances of debt that
  are attributable to the acquisition, construction or improvement of these assets reduce the balance in
  this category.
- Restricted This category presents external restrictions imposed by creditors, grantors, contributors
  or laws or regulations of other governments and restrictions imposed by law through constitutional
  provisions or enabling legislation.
- Unrestricted This category represents all other net position of the District that do not meet the
  definition of "net investment in capital assets" or "restricted net position."

#### **Fund Financial Statements**

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in governmental fund financial statements are as follows:

- Nonspendable Fund Balance includes amounts that are not in a spendable form (such as inventories or prepaid amounts, and long-term loans and notes receivable) or are legally or contractually required to be maintained intact (such as principal of a permanent fund).
- Restricted Fund Balance includes amounts that can be spent only for specific purposes stipulated by external parties (such as creditor, grant providers, or contributors) or by law.
- Committed Fund Balance includes amounts that can be used only for the specific purpose
  determined by the County of Madera Board of Supervisors. Commitments may be changed or lifted
  only by the Board of Supervisors taking the same formal action. The formal action must occur prior to
  the end of the reporting period. The amount which will be subject to the constraint may be
  determined in the subsequent period.
- Assigned Fund Balance is comprised of amounts intended to be used by the governmental entity
  for specific purposes that are neither restricted nor committed. Intent can be expressed by the Board
  of Supervisors or by an official or body to which the Board delegates the authority. Assigned fund
  balance can be used to eliminate a projected budgetary deficit in the subsequent year's budget.
- Unassigned Fund Balance is the residual classification for the District and includes all amounts not contained in the other classification. Unassigned amounts are technically available for any purposes.

The Board of Supervisor establishes, modifies or rescinds fund balance commitments and assignments by passage of a resolution or an ordinance. This can be done through the adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by committed, assigned and unassigned resources as they are needed.

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### I. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### NOTE 2: CASH AND INVESTMENTS

Cash and investments at June 30, 2020 are classified in the financial statements as follows:

Cash and investments – unrestricted \$1,374,784

The District's cash and investments consisted of the following as of June 30, 2020:

Deposits held with County of Madera Investment Pool \$1,374,784

#### **Risk Disclosure**

Required disclosures for the District's deposit and investment risks for the cash held in the County of Madera Treasury at June 30, 2020, were as follows:

Credit risk
Custodial risk
Concentration of credit risk
Interest rate risk

Not rated
Not applicable
Not applicable
Refer to County of
Madera's financial
statements

Required disclosure information regarding categorization of investments and other deposit and investment risk disclosures can be found in the County of Madera's Comprehensive Annual Financial Report and may be obtained by contacting the County Auditor-Controller's Office at 200 W. 4th Street – Madera, CA 93637.

#### **Fair Value Measurements**

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active; and,
- Level 3: Investments reflect prices based upon unobservable sources.

The District's cash and investments in the County of Madera Investment Pool are carried at fair value. County of Madera invests in numerous types of investments ranging all levels in the fair value hierarchy. Accordingly, County of Madera Investment Pool is not an investment type that can be categorized in any particular level in the fair value hierarchy.

## NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

### NOTE 3: CAPITAL ASSETS

Capital assets activity for the year ended June 30, 2020, was as follows:

#### **Governmental Activities**

<u>Governmental Activities</u>	Balance July 1, 2019	Additions	Deletions	Balance June 30, 2020

Depreciation expense of \$19,016 was charged to the water function of the business-type activities.

### NOTES TO THE BASIC FINANCIAL STATEMENTS JUNE 30, 2020

#### NOTE 4: RELATED PARTY TRANSACTIONS

The District's assessments are levied and collected through County of Madera Assessor and Treasurer-Tax Collector departments. The District contracts with the County of Madera to provide certain services to the District. The District's accounting and clerical functions are performed by County personnel. The County of Madera charges the District for administrative costs incurred.

The amount due to the County of Madera as of June 30, 2020 is \$21,865.

#### NOTE 5: INSURANCE AND RISK OF LOSS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and natural disasters. Because the District does not have employees, it is not exposed to injuries to employees. The District's officers are officials of the County, and therefore coverage for general liability and errors and omissions is provided under the County's program. This program is self-insured to a level of \$100,000, after which excess coverage is obtained through participation in the CSAC Excess Insurance Authority (EIA). Disclosure of complete information on risk management can be found in the County of Madera Comprehensive Annual Financial Report.

#### NOTE 6: COMMITMENTS AND CONTINGENCIES

#### Coronavirus Disease (COVID-19)

On March 11, 2020 the World Health Organization declared the outbreak of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses and communities.

Specific to Maintenance District 63, COVID-19 may impact the timing of receipts for utility and assessment billings. Management believes MD 63 is taking appropriate actions to mitigate the potential negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are still developing.

# SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGE IN FUND BALANCE - BUDGET TO ACTUAL FOR THE YEAR ENDED JUNE 30, 2020

	Budgeted Amounts			Variance with
	Original	Final	Actual	Final Budget
Revenues:
