FOOD SAFETY CERTIFICATION

Health and Safety Code section 113947.1 states, "Each food facility shall have an owner or employee who has successfully passed an approved and accredited food safety certification examination." Section 113947.1 further states, "The responsibilities of a certified owner or employee at a food facility shall include the safety of food preparation and service, including ensuring that all employees who handle, or have responsibility for handling, unpackaged foods of any kind have sufficient knowledge to ensure the safe preparation or service of the food, or both." Additional specifications for approved food safety certifications can be found in Health and Safety Code section 113947.2 and 113947.3.

A copy of the certificate must be kept on the premises of the facility at all times and available at times of inspection by enforcement officers. Per section 113947.1, "Certified individuals shall be recertified every **five years** by passing an approved and accredited food safety certification examination."

FOOD SAFETY CERTIFICATION PROVIDERS

This is a list of food safety certification providers who have notified us of their services. There may also be other providers, which have not notified us. This list does not imply an endorsement of any of the providers.
