

# TELE**\/\**EDICINE

#### What is Telemedicine?

- Telemedicine is a way for you to see a trained adult/child psychiatrist using the latest in video and communication technology. You and your doctor will see each other through a computer monitor.
- The connection is over a high-speed network that is secure, private and meets strict confidentiality requirements as stated in the law.

### Here's what you can get from a Telemedicine appointment:

- · Mental Health evaluations
- Ongoing Medication Management
- · Child and Youth Psychiatry Services
- · Consultation

# What makes Telemedicine so appealing?

You won't have to travel far to see a trained specialist in adult and child psychiatry. You can see them at your local community Mental Health Center. It's a lot more convenient for you to see a specialist and the quality of care is excellent.

# BEHAVIORAL HEALTH SERVICES Madera County

### **Our Story**

We promote the prevention of and recovery from mental illness and substance abuse for the individuals, families, and communities we service by providing accessible, caring, and culturally competent services.

Ask the professionals at Madera
County-Behavioral Health
Services about how you can get a
Telemedicine appointment.
